LATE REGISTRATION
September 5 9 a.m. - 3 p.m.
September 6 1 - 6 p.m.

SHELTON STATE COMMUNITY COLLEGE WILL BE CLOSED ON SEPTEMBER 2 IN OBSERVANCE OF LABOR DAY.

SHELTON WILL OFFER ONE DAY A WEEK CLASSES

In an effort to better serve the community, Shelton State Community College will offer a number of courses this fall in a nontraditional time frame. These classes will be offered one day a week in an effort to better meet the schedule of the adult student.

"We realize in today's world there are many demands on a person's time. By scheduling classes in this manner, we believe we are offering the people of West Alabama the opportunity to attend college and at the same time, continue their normal activities," said Shelton President Tom Umphrey.

"The Electronic Office (Desk Top Publishing)" will be offered each week on Friday from 8 a.m.-12 noon on the 15th Street Campus. A number of math courses such as Developmental Algebra I and II, College Mathematics, Plane Trigonometry, and Technical Math I will also be offered on Friday during the same time period.

Eight courses will be offered one night a week during the Fall quarter at the college. On Monday evenings, DBase I, English Composition I, and Real Estate will be taught from 5:30- 9:45 p.m. "Lotus I Theory" and "English Composition II" will be taught weekly on Tuesday from 5:30-9:45 p.m. at Shelton State. On Wednesday, "First Aid" will be taught from 5:30-7:45 p.m. "Intermediate College Algebra" and "Word Perfect Commercial Software" will be taught on Thursday evenings, 5:30-9:45 p.m.

"Special Projects in Cosmetology" and "Motors, Transformers, & Generators in Industrial Electricity" will be offered on Friday from 8 a.m. - 12 noon. The Licensed Practical Nursing Program will offer a course "Causes and Prevention of Disease" on Friday from 3-7:35 p.m.

82.9 PERCENT PASS RATE ON REAL ESTATE EXAM

Eighty-two percent of the students enrolled in Shelton State's real estate class who took the recent examination passed. The college recently received the cumulative results of the Alabama Real Estate Examination for the period July 1990-June 1991. Three students from the Skyland Campus took the broker examination, and all three passed.

In addition, in three of the four major National Examination content categories, the mean score for Shelton State students was higher than the state mean score.

SHELTON STATE INTRODUCES NEW COMPUTER CENTER IN EUTAW HOUSING PROJECT

Shelton State Community College continues its commitment of providing additional educational services to the people in Alabama's Black Belt with the unveiling of its new computer laboratory next week in Eutaw, Alabama.

As part of the college's thrust, a workshop was held, August 19 from 10 a.m.-12 noon in the Branch Heights Community Center in Eutaw. The purpose of the workshop was to introduce the community to the new computer laboratory. As part of the program, a demonstration was held showing the community how programming can be transmitted by microwave from Shelton State in Tuscaloosa to Branch Heights in Eutaw.

Shelton State is the first two year college in the state to offer college courses in a federally funded housing project. The new computer lab is the culmination of efforts by the college, Community Services Programs of West Alabama, and the Green County Housing Authority.

The college offered classes at Branch Heights for the first time last fall, and enrollment has increased to over 75 students. This fall over 18 courses will be offered at the center, and the showpiece of the project, according to college officials, will be the new computer laboratory.

The project has also had the direct support of the state Board of Education and the Office of Postsecondary Education. Through the combined efforts of State Board members Willie Paul and Victor Poole, whose districts fall into the Black Belt region, and Postsecondary Chancellor Fred Gainous, the dream of offering college courses in the region began to reach fruition, according to Dave Freeman, project director.

CHILD DEVELOPMENT ASSOCIATE PROFESSIONAL PREPARATION PROGRAM TO BE OFFERED AT SHELTON STATE

This fall Shelton State Community College will offer a Child Development Associate Professional Preparation Program, a credentialing program for individuals interested in being trained in child care work.

The CDA is an individualized one-year course of study, offering students child development courses and field experiences in child care settings that will enable them to build the skills necessary to complete the program. A career ladder program, the CDA has been established nationally through the Council for Early Childhood Professional Recognition. Its basic goal is to meet the dramatic need for quality child care in the United States.

The CDA makes high quality professional preparation more accessible to caregivers. By linking with colleges and universities to provide course work and to monitor training, the program aims to strengthen the academic acceptability and credibility of the CDA credential. It also enables CDA training to be more closely integrated with other forms of early childhood teacher preparation.

Shelton State will be involved in all three phases of the CDA program, according to the director of the program, Sherry Kirksey. "We're hoping to bring greater professionalism to the field of child care, " said Kirksey. After completion of the three phases, the student will receive the CDA credential.

The first course in the program, "Introduction to Child Care" will be offered this fall at Shelton State on Monday and Wednesday, 5:30-7:30 p.m. The cost of the course is $110.00. Registration will be September 3-4, and classes will begin September 5. Two courses will be taught Winter quarter as part of the program, "Principles of Child Growth and Development" and "Methods and Materials for Teaching Young Children." The courses will be taught by Kirksey and Allan Mallory. To register for the course, contact Kirksey, 391-2287.
